Dear : Dr. Terry E. Johnson, Director of Human Resources,

I am writing to express my interest in the web developer role at your company asking for the interview on April 9th 2024. As a current student of West-MEC and Vice President of my FBLA chapter I believe my skills and knowledge will make me an excellent fit for the position.

I believe FBLA is the right place for me especially because of this line "I have the responsibility to work efficiently and to think clearly. I promise to use my abilities to make the world a better place for everyone." These sentences truly speak to me as I strive to create a better world using unique talents I possess.

I am incredibly passionate about programming, web design, and have a strong understanding of the current trends leading to innovative solutions in the industry. My experience programming in Python has helped me develop a sharp eye for detail and a creative approach to problem-solving. I am a highly motivated individual who is eager to contribute to the success of the team.

I am confident that my abilities and experience make me an ideal candidate for the role and I look forward to discussing my qualifications further during the interview process my resume will also be included to further look at my skills.

I also believe that my ability to work well with others can help to make me an excellent member on your team

Thank you for your time and consideration and I look forward to hearing from you.

**Best Regards**

Stryder Bateman
